

EUGENE P. WIGNER

DISTINGUISHED LECTURE SERIES
IN SCIENCE, TECHNOLOGY, AND POLICY

The Unreasonable Effectiveness of Curiosity

Professor Andrew Briggs is the inaugural chair in nanomaterials at the University of Oxford. Best known for his pioneering work in acoustic microscopy for materials characterization, Briggs is currently focusing on nanomaterials for new technologies and for incorporation into practical devices. He is an honorary fellow of the Royal Microscopical Society and a member of the International Society for Science and Religion and Academia Europaea.

Tuesday
March 8, 10 a.m.

Iran Thomas Auditorium, SNS

Shuttle from main campus
beginning at 9 a.m.
