APPENDIX A

THE UNIVERSITY OF TENNESSEE INTELLECTUAL PROPERTY AGREEMENT (For a Visitor Engaged in Research)

Name of Visitor Engaged in Research:

In consideration of the availability to me of: (a) opportunities to perform sponsored research and/or (b) access to or use of UT funds or facilities; (c) my present or subsequent employment by UT, and/or (d) my present or subsequent assignment to UT, I agree as follows:

1. I hereby assign and agree to assign to UT or the University of Tennessee Research Foundation ("UTRF") or other organization designated by UT or UTRF, all right, title, and interest in any invention or creation that I, either solely or jointly with others, make, conceive or reduce to practice during my period as a Visitor at the University of Tennessee, except for inventions and creations specifically exempt from University ownership as described by UT's Statement of Policy on Patents, Copyrights, and Other Intellectual Property as amended from time to time ("UT's IP Policy"). This agreement includes all "subject inventions" as defined by the Bayh-Dole Act (35 U.S.C. § 202(e)).
2. I will promptly disclose each invention and creation covered by this Agreement to UT in writing. Each invention disclosure will be sufficiently complete in technical detail to convey a clear understanding, to the extent known at the time of the disclosure, of the nature, purpose, operation, and characteristics of the invention. I will indicate whether I wish to publish or otherwise publicly disclose the invention and if so, the approximate time-frame for such public disclosure. I will provide additional information concerning such invention or creation and/or the circumstances under which it was made as requested by UT or UTRF.
3. At the request of UT or UTRF, I will sign all appropriate documents and otherwise do all things necessary and proper to effectuate the intent of this Agreement, including providing assistance in the filing, prosecution, defense, and enforcement of patent applications and issued patents on inventions covered by this Agreement and in the registration, defense, and enforcement of copyright on creations covered by this Agreement. If UT is unable to secure my signature as necessary to do these things (for example, if I cannot be located), I appoint the University or its assignee as my agent and attorney in fact to sign my name for those purposes.
4. I acknowledge that UT may have entered into agreements with third parties and that those agreements may create obligations with respect to inventions and creations relating to or made during my work at UT. I understand that my ability to publish or present research data may be delayed in some instances in order to permit the funding entity and UT to review the data before it is disclosed to others. I will discuss plans to publish or present data with my UT PI or Faculty Sponsor, and as needed with the Office of Sponsored Programs, in order to determine what reviews are needed prior to publication.
5. I agree to be bound by UT's IP Policy. I acknowledge that I have received a copy of UT's IP Policy and have reviewed it (<https://utrf.tennessee.edu/inventor-resources/ut-policies/>).

6. I do not have any consulting or other agreement with any third person or organization that is, or could be reasonably construed to be, in conflict with this Agreement, and I will not enter into any such agreement. In the event that I enter into such an agreement or discover that I have in fact entered into such an agreement in the past, I will promptly notify UT in writing, and upon request I will provide UT with a copy of such agreement.
7. This Agreement shall be effective as of the Beginning Date as defined in the Agreement for Visitors.
8. This Agreement supersedes all previous agreements, written or oral, relating to the above subject matter, and shall not be changed orally.
9. This Agreement is made in the State of Tennessee, USA, and shall be interpreted and construed and any legal relations created hereunder shall be determined in accordance with the laws of the State of Tennessee, without reference to any conflict of laws provisions.
